

FLYRIGHT Ltd

Please print off this form, fill it in and bring it with you to your medical

Consent to send information pertinent to your status as a pilot via email

Email is now essential to send and receive information and reports pertinent to your status as a pilot with yourself, specialists and the CAA in a timely manner. In the UK this currently requires your explicit consent. Whilst not every process can be completed purely by email, if you do not wish to use email when it is possible, please be aware of the significant delays in the process that can occur and possible extra administrative costs for yourself.

If you are happy to use email please sign and date below.

I give consent to Dr Ian Donnellan to send information (such as an ECG or a medical report) to the appropriate Civil Aviation Authority or to other relevant specialist (such as Cardiologist) by email.

I also consent to Dr Ian Donnellan sending me information to my personal email address when appropriate.
